

Senior Project Experience

The Senior Project Experience is a five week internship open to members of the Senior class during the last quarter of their senior year. This year we had four excellent students take advantage of the Senior Project Experience—working at a Hedge Fund operation in Boston, local Northshore Medical Centers, an accounting firm in Danvers and Girls Inc in Lynn. Students are required to write a paper about the experience, keep a weekly journal, and are supervised by St. Mary's administration and faculty. A presentation to the St. Mary's Community at the end of their time caps off the experience for them. We hope to continue to offer this experience as an option for our students.
